

To whom it may concern:

As winter residents of Los Zacatitos for the past 5 years, we have lived as neighbors to Gene Crane. We have also employed his services as a carpenter to work at our residence. We have found him to be honest and capable in his workmanship, and have enjoyed living near to him. His conduct has always been appropriate, he has caused no disturbances, and he has always been willing to help in situations where he could be of service. We would have no hesitancy in providing any type of character reference needed.

This letter may be used in any situation where Mr. Crane's character or conduct has been called into question.
